## SUMMARY

Software Engineering graduate specializing in web development, with two years of experience as a UI/UX designer and full-stack developer in personal projects and university internships. Proficient in tools and technologies such as Figma, React, Next.js, Node.js, Express, MongoDB, and Supabase. I combine my design and development skills to create functional and scalable web applications.

## EDUCATION

**Universidad Politécnica de Durango** **August 2022 - April 2026**

**Relevant Coursework:** Interface Design, Web Development, Object-Oriented Programming, Client-Server Programming, Software Architecture.

## EXPERIENCE

**RentApp** **May - October 2026**
*UI/UX Designer and Full-Stack Developer* *Durango, Mexico*

- Designed all **user interfaces** in Figma for both the web version and the mobile application of the system.
- Developed the previously designed interfaces using **React, Tailwind CSS,** and **Zustand** for the Housing, Tenants, and Incidents modules on the web system and mobile app (using **React Native**).
- Integrated custom React functions and hooks that make database calls to **Supabase**, ensuring code reusability.
- Implemented a **Stripe payment gateway** that securely processes rent payments and subscription purchases made by users.

**AguaMía** **August - September 2026**
*UI/UX Designer and Full-Stack Developer* *Durango, Mexico*

- Designed the **user interfaces** and **user experience** for the company's official website across six distinct pages, including Landing Page, About Us, Contact, Products and Services, Checkout, and Blog.
- Built the frontend of the site using **Next.js**, **Tailwind CSS**, and **TypeScript**, implementing reusable components and sections from **Shadcn/UI**.
- Integrated a RESTful API using **Node.js, NestJS,** and **Prisma** and connected it to a **PostgreSQL** database, ensuring data security and scalability.
- Implemented a payment gateway with **Stripe,** allowing users to purchase company memberships and place bottled water orders.

**Hemisferios** **January - April 2026**

*UI/UX Designer and Full-Stack Developer Intern* *Durango, Mexico*

- Designed the **interfaces** in Figma for the center's website and appointment booking system, establishing a design system consistent with the brand.
- Developed the frontend for the website and rental system using **React** and **Next.js**, delivering an optimal browsing experience for users.
- Integrated **Express** and **Node.js** to build a **RESTful API** connected to a **MongoDB** database, establishing an efficient backend for the system.
- Contributed to reducing the center's administrative workload by **40%** through the implementation of the website and appointment system.

**Artex** **September - December 2024**

*UI/UX Designer and Frontend Developer* *Durango, Mexico*

- Designed user interfaces in Figma for all e-commerce views, from the Landing Page and Catalog to the Cart and Checkout Form.
- Built user interfaces using **React**, **Flowbite**, and **Tailwind CSS**, implementing key features such as searching and filtering catalog products, and adding, deleting, and modifying items in the cart.
- Contributed to reducing customer order processing time at Artex by **35%** through the implementation of the e-commerce frontend.

## SKILLS AND INTERESTS

---

- **Languages:** Native Spanish and Conversational C1 English (iTEP certification).
- **Frontend Languages and Technologies:** HTML, CSS, JavaScript, TypeScript, React, React Native, Next.js, Tailwind CSS, Zustand, and Axios.
- **Backend Languages and Technologies:** PostgreSQL, MongoDB, Express, Node.js, Supabase, NestJS, Prisma ORM, Stripe, HTTP protocols, RESTful APIs.
- **Hard Skills:** UI/UX design, responsive design, full-stack development, database and server implementation, RESTful API integration, automation with Git and GitHub.
- **Soft Skills:** teamwork, communication, proactiveness, adaptability, and discipline.
- **Personal Interests:** music, basketball, writing, tech communities, and events.
